

The Association for Perioperative Practice

Conversation prompts for Organisation Paid Membership applications

Benefits

- **Contribution towards Quality and Safety**

I will have access to up-to-date research, best practices and educational materials. This can help shape our departmental safety policies and the way we work, supporting us in providing the highest quality of care to our patients.

- **Enhancing Leadership Skills**

By sharing the knowledge gained through membership, also helping to shape the department's policies and increasing safety for both patients and staff, I will be participating in leadership practices that will enhance my knowledge and experience, and that of others.

- **Reduce Staff Turnover and Boost Morale**

Having access to AfPP could contribute to my career satisfaction and engagement. By you supporting me with this would also help me to feel valued by our organisation. It shows you are committed to assisting me with my professional and personal development.

- **Education and Professional Development**

AfPP offers members free and discounted events, courses, webinars and conferences. This will all assist me in gaining my necessary CPD in subjects appropriate for my role and registration.

The educational offering will allow me to stay updated with advancements in perioperative care, improve my personal skills, and bring new innovative ideas back to our workplace. This will ultimately enhance the care for our patients.
